Good morning,

I just sent the below email however it was rejected due to email system size restrictions; I have since included the attachments in the link below for your review and comment. Please let me know if you have any trouble opening the below link:

 [Tributary](#)

Below is the substance of the original email:

Staff received applications for a Notice of Proposed Change (NOPC23-001), Comprehensive Plan Amendment (CPA23-011), and modification to a Planned Unit Development (PUD23-004) for the Three Rivers (aka Tributary) Development of Regional Impact (DRI). Attached are the applications and supporting documents. From these attachments, please let us know if there are any items you would like to address. Of note, the dates on the draft PUD Ordinance and DRI Amendment Resolution (last two Word documents attached) will be updated to reflect the current year and presiding Clerk. I have sent the Traffic Impact Analysis items to Development Services via separate email as these items are too large to email. I have also forwarded the Fiscal Impact Analysis to Marshall Eyerman/OMB for review. I can forward either of these items to anyone who wishes to see them.

We would like to receive any comments back before January 29th (no comments are also acceptable). These comments will be provided to the applicant.

Let me know if you have any questions and please let me know if I have missed any of your staff who should be receiving this email. Thank you in advance for your review.

Very Respectfully,
Elizabeth
